

## Calgary Diocesan Synod Hears Inspirational Messages

Stirring Addresses by Archbishop  
DuPencier and Bishop Sherman  
Enthusiastic Delegates

The 24th Synod of the Diocese of Calgary, held in that city last week, was the last in the history of the diocese. With one exception caused by illness of Canon Haynes of Brocket Indian school, all the clergy were present, and over a hundred lay delegates. From Coleman Rev. A. S. Partington, B. A., Major R. F. Barnes and H. T. Halliwell attended, and T. W. Hill from Blairmore.

Prior to the opening of Synod on Wednesday, a banquet was held in the spacious Alhambra room of the T. Eaton Co. on Tuesday evening, 307 being present. At the head table were seated His Grace the Archbishop of New Westminster, the Lord Bishop of Calgary, Chief Justice Walsh, chancellor of the diocese, and the archdeacons of the diocese, including the Venerable Archdeacon Tims, distinguished missionary to the Indians, who came to the diocese over forty years ago.

Among the guests was Dr. Kerby, principal of Mount Royal college, whose presence was fittingly acknowledged in a gracious tribute to his life in Calgary by Bishop Sherman.

An outstanding event of the Synod was the service in the Church of the Redeemer (pro cathedral) on Wednesday evening. The choir, men and boys, assisted by the choirs of the Anglican churches in the city, headed the lengthy procession, in which were the Archbishop, the bishop, chancellor, clergy and lay delegates. Forming in Paget hall, they marched into the cathedral to the singing of the processional hymn—"At the name of Jesus, every knee shall bow," and as the grand tones of the great organ swelled forth, the singing of the hymn was most inspiring and the building was filled with people from the city joining in the inspiring service.

Archbishop DuPencier presided a challenging, fighting sermon exhorting Christian people to uphold vigorously the cause they represent. He referred to other great religious bodies, and to the challenge that Russia is flinging to the world. Men might remark that they did not believe in organized Christianity, and that they would worship in their own way, not being members of any Christian body. He recalled the Great War, during which he served for three years in France. How ridiculous it would have been for any man to say he did not believe in organized forces in meeting the great challenge then thrown out to the rest of the civilized nations. Had a man said he did not believe in organized armies, but that he would shoulder a rifle and go forth alone to do his share, he would have been a laughing stock. We must have organized Christianity, and we must have leadership.

This service was closed with a very fine anthem by the massed choirs, conducted by the cathedral choir director, Dr. Foulde, Mr. Thos Jenkins, Mus. Bac., being the organist. A most impressive service was brought to a close with the benediction pronounced by the Rt. Rev. L. Ralph Sherman, D.D., Bishop of Calgary.

On Thursday evening the Archbishop was the guest of honor at the regular meeting of Zetland Lodge, A.F. & A.M., held in the Masonic Temple, and at the ban-

## Imagine the Suffering!

Superintendent J. McLeod for nine days missed a valuable setter pup, aged nine months. On Sunday last Andrew Dow was walking about four miles north, and hearing a dog plaintively barking, he searched around among the underbrush and fallen timber, and found it caught by the leg in a steel trap. He released it and very shortly after it was caught by the foreleg in another trap. Two claws were torn out in its efforts to loosen itself from the first trap, in which it was held by the pad of the foot.

It is reported that Mr. Whiteside's fine police dog has been missing since two weeks before Christmas, not the slightest trace of it having been discovered.

The cruelty of the steel trap and the negligence of those who set them and do not promptly inspect them gives some idea of the suffering caused to animals of the woods that may suffer torture and anguish for days, until death comes as a merciful release. The crusade against the steel trap will continue as long as humane people have regard for the sufferings of dumb animals.

## United Church Notes

On Sunday at 7.15 p.m. at St Paul's United church the young people will take charge of the service. The following will take part: Leader, Idris Hayson; speakers, Mrs. Edgar Reid and Wilmer Cox; lessons, Margaret McDonald; announcements, Belle Flynn; ushers, Earl Bower and Gordon May; solo, Irene James; violin solo, Master James Allan; choir, senior and junior groups of C. & A. T.

On Tuesday, Feb. 17, at 8 p.m. (instead of Monday, please note) Coleman Young People's League will entertain Blairmore Young People's League. Miss Yuill will give a talk on mountain climbing, which will be illustrated by slides generously loaned by the Canadian Alpine Club. This is to be followed with a social gathering at which refreshments will be served.

Sun. Feb. 22, Father and Son service at 7 p.m. Mon. Feb. 23, Father and son banquet. Further announcement concerning these two events next week.

## Card of Thanks

The undersigned desire to thank the electors of Coleman for their support in electing them for a two-year term to the Board of Trustees of Coleman School District, and assures them that it will be their aim to maintain the schools at the highest possible standard of efficiency, consistent with economy. (Signed) James M. Allan. Wm. Antrobus. Frank Barringham.

Just following the lodge meeting, he was introduced by Canon Middleton, past Grand Master of Alberta, who stated that this occasion was unique in the history of the Craft in Alberta. It had been honored by a visit from the Prince of Wales when he visited High River Lodge whilst staying at his ranch, and on this occasion they were honored by a visit from a prince of the church, His Grace the Archbishop of New Westminster.

The sessions of the Synod opened at 10 a.m. on Wednesday. Lunch was served every day in Paget hall by the ladies of the Anglican churches in the city, and proceedings continued till almost 6 p.m. on Friday. A reception was held at Bishopsgate on Thursday evening, when most of the delegates called on the bishop and Mrs. Sherman at their home.

## World's Wheat Champion Given World Tour

**WINNER** of the world's wheat championship at Chicago's International Livestock Fair for the second time, Herman Trele, Wesley, Peace River District, has been singularly honored by E. W. Beatty, chairman and president of the Canadian Pacific Railway, at whose invitation he will make a trip around the world. Trele, though

## Nineteen Rinks in Bonspiel at Cranbrook

Allison Has Only Undefeated Rink  
in 'Spiele; Coleman Gets  
Next Year's Bonspiel

Coleman was represented at Cranbrook bonspiel by: J. H. Boulton's rink, composed of Fr. F. Lehman, John S. D'Apolonia and Sam Moore, who won the Grand Challenge Cup, the prizes being four silver jugs. They also won second prize in the Trele-Wood competition, the prizes being four silver pitchers.

H. C. McBurney's rink was composed of Fred Antrobus, W. L. Bippin and Ed Ladieu. They did not reach the prize-winning class.

The following detailed report is from last Thursday's Cranbrook Courier, when competitions were still being played towards completion:

Wednesday evening the social side of the bonspiel was indulged in by about one hundred curlers when the annual banquet was held in the Maroon hall, the Ladies' Curling Association providing a spread to which full justice was done. W. F. Cameron, president of the Crow's Nest Curling Association, was in the chair. He extended a hearty welcome to the visiting curlers and those of the home squad assisted in this, one of the most successful bonspiels, in the history of the organization.

Sherwood Herchmer, of Fernie, known as the historian of curling, gave a resume of the activities of the Crow's Nest Curling Association since its inception in 1912. Fernie headed the list of clubs that supplied rinks to the annual bonspiels, sending a total of 82 rinks to spiels held in every town within the jurisdiction of the club.

The association includes in its membership the towns of Pincher Creek, Bellevue, Blairmore, Coleman, Fernie, Bull River and Chai Brook. Lethbridge has withdrawn from the association.

Speakers at the banquet included H. C. McBurney, Coleman; R. O. Allison, Pincher Creek; Milt Kastner, Fernie; W. Kerr, Bellevue; Oscar Jostad, Bull River; E. H. McPhee, Cranbrook; Rev. McLean-Bell and Father Madden; E. K. Stewart, Fernie.

In the event of the McGrath cup being withdrawn from competition, owing to Lethbridge pulling away from the association, Fernie will place the Walker cup into competition. Pincher Creek, Blairmore and Coleman will also support other

## Delivery Service by Coleman Bakery

F. A. Hart, manager of Coleman Bakery, has instituted a house-to-house delivery daily. A very fine brand of "Milkmaid" bread is sold which will commend itself to all householders, and tickets are sold at 13 for \$1.00. Besides delivering bread, the wagon carries a supply of other products of the bakery, such as rolls, doughnuts, pastry, etc. If you require special orders, telephone 19, and they will be delivered on the regular round.

## Announcement

Anyone wishing business letters written or typed of any kind, apply to Miss Mac Bell of Journal Office.

Two weddings on Saturday and two on Monday caused a flutter of interest around town, the daily decorated cars and honking horns advertising the events to the populace.

An invitation was extended from Coleman for the holding of the next bonspiel, which was endorsed on motion of Kerr, of Bellevue, and seconded by Milne, of Cranbrook. The choice was a popular one.

Votes of thanks were passed to the members of the Cranbrook Curling Club and to the ladies for their splendid spread. E. K. Stewart, of Fernie, moved the votes in his customary graceful style.

Officers who will guide the destinies of the association for the next twelve months are:

President—H. C. McBurney, Coleman.

Vice president—E. K. Stewart, Fernie.

Secretary—Sherwood Herchmer, of Fernie.

Executive—W. F. Cameron, Cranbrook; Milt Kastner, Fernie; Oscar Jostad, Bull River; H. Boulton, Coleman; R. O. Allison, Pincher Creek; W. Kerr, Bellevue; Lance Morgan, Blairmore; B. Luck, Canal Flat; Frank Stockdale, Invermere.

The president and secretary were authorized to look after all prizes for the next spiel and encourage every town within the Crow's Nest Curling association to affiliate with that body.

Following the business session an hour of story telling and community singing was indulged in. O. N. Jacobson lead the singing with Alan Graham presiding at the piano. Harold Minton's Cherry Song was one of the outstanding numbers on the program.

## School Trustees Election Result

Of Over 1000 Voters Only 20 Per  
Cent Went to Polls on  
Monday Last

Allan, James M., 164.  
Antrobus, William, 146.  
Barrington, Frank, 141.  
Glendenning, James, 82.  
Hope, George, 63.

Though there were over 1,000 eligible voters, 199 was the total of Monday's poll. 65 were women, and very few of the non-English speaking people voted.

## Blairmore Won Crows Nest League by 8-5

Coleman Canadians Put Up Splendid  
Battle in Final Game But  
Unable to Overcome Lead

After playing a disappointing game against Blairmore on Saturday night, when they went down to defeat by a score of 7-2, Coleman Canadians regained the confidence of their supporters by defeating Blairmore on their own ice on Monday by a score of 3-1. Blairmore won the finals of the Crows Nest League by a margin of 8-5, after the keenest season of hockey since Coleman team was reorganized in 1928.

Reviewing the team for the season, and their playing record, it is evident that the addition of younger players on the forward line, and Joyce and Gardiner on defence, has given Coleman the best team it has had in recent years. With better team work on the ice, they would have undoubtedly given Blairmore a much harder contest for the championship.

The season has been productive of good sport, which the public has enjoyed, and favored by splendid weather, attendance has been greater than for three years, resulting in the gate receipts being much larger.

It is hoped that other games may be played before the season closes, for hockey fans love to see a clean, close contest, and good sportmanship will always commend itself to public support.

Blairmore now is scheduled to play at Nanton on Friday night, and the return game will be played at Blairmore on Wednesday. If Blairmore should win the intermediate championship of the province, they will have the right to challenge the winners of the senior provincial championship.

## Caledonian Society Committee Appointed

Will Make Canvass With View to  
Completing Organization and  
Arranging Meetings

A meeting was held in the K. of P. hall last Friday evening for the purpose of forming a Caledonian Society. The attendance was very disappointing, but the few who did attend were determined to go ahead and make it a success.

A committee of six was appointed to interview everyone in town who is eligible for membership with a view of interesting them in the society.

There are sufficient people in town directly or indirectly interested in Scottish traditions, customs, music, poetry and sports, as well as the many other worthy community enterprises which the society fosters and encourages to make it one of the best of its kind in the province.

A meeting combining business and entertainment will be held in the near future at which the committee will submit a report of their canvass and permanent officers will be appointed.

## Here and There

(691)  
More than two million tineling salmon and 49,000 trout yearlings were placed in Lake George basins and streams during 1930 from the fish hatchery at Lake George.

About \$30,000,000 was spent in Canada in 1930 on hydro-electric power, and it is expected that fully \$300,000,000 will be spent for a similar purpose during the next three years.

Consumption of natural gas in Canada during 1929 for domestic purposes was calculated to be sufficient to displace 44,000 tons of coal. Natural gas is found in abundance in Alberta and some parts of Western Ontario, and the Maritime Provinces.

Province of New Brunswick's representation at Sportmen's Shows in the United States this year will be larger than ever and new territory will be invaded. Its first exhibit will be at the New England Sportmen's Show at Boston, February 7-14, and also at the Philadelphia Sportmen's and Motor Boat Show, February 21-28.

Six thousand pounds of unfrozen white fish from Scotland, taken recently won by Canadian Pacific from Prince Albert to Winnipeg and points beyond, returned 130 miles to Prince Albert by aeroplane in one hour and a quarter, a trip that would by ordinary means have taken from eight to eleven days.

When a 22-year-old woman recently fell from the wharf at Pier D, Vancouver, into the dangerous whirl of the Burrard Inlet, William Hutton, assistant chief clerk of the British Columbia Coast Steamships of the Canadian Pacific Railway, without hesitation dived in and after a 20-minute battle in the chill waters succeeded in getting her ashore. The woman will recover.

All Canada from hors d'oeuvres to dessert was represented at the first dinner served to the former Governor-General, Sir Charles Vane, Viscount Willmorton, on Canadian Pacific liner Montcalm, which sailed for Ennisville, Scotland, with Saint John oysters, it included supreme of Nova Scotia scallops, and a western lamb roast, Ontario chicken, and bomb maple leaf as a sweet.

Work has started on the building of the British Columbia link of the Trans-Canada Telephone Line. A direct system through the Crow's Nest Pass to Alberta will be provided to replace the present system of telephone calls to and from British Columbia across the United States via Seattle. The proposed system will cost \$150,000 and will involve some 655 miles of telephone lines, 125 miles of which have already been built.

Marriage at sea has happened before and will likely happen again, but the distinction of being baptised at sea is claimed to be unique and this occurred when two infant children were baptised in mid-Atlantic by Dr. Oliver C. Rankin, Scottish minister aboard Canadian Pacific liner Montcalm, recently. The mothers and children were coming out to Canada from Great Britain in the ship, and were giving a course of lectures at McGill University.

## MAINTAIN BANKS ALWAYS HELPFUL TO THE FARMERS

Toronto, Ont.—Statements made by Hon. Robert Weir, Dominion Minister of Agriculture, regarding Canadian banks and the financial situation in the West at the banquet tendered to stock breeders and exhibitors by the Canadian National Exhibition recently were replied to by Sir John Aird, president of the Canadian Bank of Commerce, and A. E. Phipps, general manager of the Imperial Bank of Canada.

"The banks always have been very generous with the farmers of the West and they haven't changed their policy," said Sir John in commenting on Mr. Weir's demand that the bankers make their stand clear as to whether or not they will give credit next spring.

Instances cited by the Dominion Minister of Agriculture at the banquet in which a farmer and a rancher, both men of standing and large property holdings, had been refused relatively small loans, were referred to by Sir John. Other considerations must have entered in, he said, "if the facts are as Mr. Weir says, the farmers might have appealed to superintendents of the bank at Winnipeg, Calgary or Vancouver," said Sir John. "They had a right to do that, but Mr. Weir might have written a letter to the head office of the bank setting forth the circumstances, and I think everything would have been straightened away satisfactorily."

The president of the Bank of Commerce stated that the banks at present have under consideration the proposal for the formation of a company to aid the western farmers capitalized at \$5,000,000 and which it is proposed to have backed up by the government, the railways and the banks.

Mr. Phipps declared that, instead of a shortage of credit to western farmers, the banks had been over-indulgent.

Mr. Phipps' statement follows in part:

"The west is suffering from an over-indulgence in banking credit rather than a shortage of credit, with the result that many farmers in Saskatchewan already owe their bankers for two or three years' advances and some of their debts go back farther than that. It is people in this class that are continually clamoring for more assistance from the banks."

"This bank has thousands of customers throughout the west who keep their affairs in proper shape and who are anxious to obtain the banking credit they require. But once a farmer loads himself with more debt than he can possibly pay, it is futile for the banks to go on making further advances, which simply means giving away other people's money."

"I repeat that banking credit always has been and still is liberally distributed in the west and in those cases where further credit cannot be obtained it is usually a case for government or charitable relief. Nothing is gained by lending more money than a borrower can repay."

"It is a pity that it is time that somebody spoke out in the interests of the banks who have, over a period of years, literally put out millions in losses and who have millions in frozen debts negotiated in past and present endeavours to assist the western farmer."

## St. Godard Wins Dog Derby

Captures First Prize and Gold Challenge Cup

Ottawa.—Emile St. Godard, Le Pas, Man., repeated his victory of last year in Ottawa's international dog sled derby. The young "monarch of mush" withstood a gruelling stretch drive by his fellow Manitowans, "Shorty" Russick, Cranberry Portage, to capture the \$1,000 first prize money and the Chateau Laurier gold challenge cup.

The veteran from Cranberry Portage drove over the final 33½ mile leg of the 100-mile race in three hours, nine minutes and 44 seconds. This was three minutes and three seconds better than St. Godard's time but the lead piled up by the latter in the two previous heats was enough to give him victory.

St. Godard's elapsed time for the 100-mile derby route was nine hours, 18 minutes and 40 seconds. Russick required 9:22:30.

Most of the railway and tramway companies in Argentina are now owned by British capital.

W. N. U. 1876

## Canadian Is Candidate

Brig-Gen. Critchley Enters By-Election Contest In Britain

London, England.—Although Lord Beaverbrook and his Empire crusaders have had nothing to say regarding the sudden withdrawal of their candidate, Paul Springman, from the by-election fight of East Islington, they have soon filled his place.

Brig-Gen. Critchley was born in Calgary 40 years ago. He served with the First Canadian Division in France, going over as adjutant of the 1st Canadian Infantry. After the war, he was engaged in immigration work in Mexico and Central America. The general is vice-president of the British Portland Cement Association and is on the boards of other companies.

## Kingston Welcomes

### Royal Travellers

Thousands Crowd Docks To Greet Prince Of Wales And Prince George

Kingston, Jamaica.—Greeted by an ovation from 50,000 persons who crowded the docks, the Prince of Wales and his brother, Prince George, stopped over here on February 4, on their voyage to South America.

Despite the busy day which awaited him on this island, the prince to the British throne found time to order a new golf course at Constant Spring, six miles from here, and to attend a polo match.

In the evening the royal guests were guests of honor at a reception given by Governor Sir R. E. Stubbs and Lady Stubbs at Government House. There they met the high dignitaries of the island.

At the end of the official welcome, the Prince of Wales pleased the crowd by making a short speech. He said that brighter days were ahead and told the Jamaicans to face the future with courage.

## The Radio Situation

Department of Justice Investigating Legal Aspects In Respect To Quebec

Ottawa, Ont.—Legal aspects of the radio situation in Canada, with particular reference to Quebec province, are being placed before the Department of Justice for consideration. Announcement to this effect was made here.

So far the Dominion Government has not received a copy of the questions being asked by the Taschereau administration in placing before the Quebec courts respecting the claims of the Quebec Government for radio control in that province. When these questions are received, it was stated, they will be considered by the Department of Justice, and a decision will be made as to whether or not the Dominion authorities will be represented at the hearing, which is being initiated in Quebec.

## Airplane Owners Sued

Ontario Woman Enters Action For Alleged Negligence

London, Ont.—The first action at law in Canada in which negligence in driving an aeroplane is alleged was called in the Court of Assizes of Middlesex County.

The accident occurred on July 27, 1930. The aeroplane, belonging to Roy and Douglas Macklin and Harry Peterson, of Sarnia, was making a landing at Port Frank when it is alleged, its wing struck Mrs. Mary McGilivray, of Parkhill, as she was bathing in the lake.

She contends the owners of the plane were negligent in attempting to make a landing in the midst of a crowd of people and claims \$10,000.

## May Consider Naval Pact

Britain's Decision Depends On Action Of France And Italy

London, England.—Rt. Hon. A. V. Alexander, First Lord of the Admiralty, declared in the House of Commons, that unless France and Italy adhere to the principles of limitation of naval armaments Great Britain will have to reconsider her present construction program.

The British commonwealth, he said, was now building 64,145 tons in warships of which 2,656 tons were being ordered for Canada. France was building approximately 100,684 tons, and Italy 100,777 tons.

## NEW ZEALAND 'QUAKE CAUSES GREAT SUFFERING

Auckland, N.Z.—As details of the disaster in the Hawke Bay region, but against the Hawke Bay region unfolded today, February 5, New Zealand appeared for the first time to realize the full import of the terrible tragedy.

A dense shadow of death and suffering hovered above the stricken region, but against this dark background stood out deeds of splendid heroism and devotion. Into the dark desolation of the area so suddenly overwhelmed stricken doctors and nurses by the drench, bluejackets by the shore, and relief of all manner.

A general order was issued demanding within two days the evacuation of Napier, capital of Hawke Bay province, and centre of the 'quake. Authorities feared an outbreak of some terrible disease if survivors remained in the once busy seaport town. Arrangements had already been made to evacuate 5,000 women and children to Palmerston, north of Napier.

Messages placed the dead at Hastings between 80 and 100, and 21 identified. Napier had 48 identified dead. A score of bodies lay unclaimed. At least 1,000 were injured, some critically, and other towns in the province were yet to be heard from. The British cruisers "Dunedin" and "Diomedes" arrived at Napier and Commodore Blake immediately took charge of relief measures. An intricate message from Blake to the "Dunedin," anchored some distance off shore owing to the virtual destruction of Hawke Bay harbor, requested an immediate store of explosives, indicating the commodore planned to blow up all standing buildings to check the advance of flames.

Fire still raged in Napier and Hastings, licking through the ruins of the broken cities while firemen could only watch, helpless because of shattered water mains. The steamship "Taranaki" sailed from Napier for Auckland with "Diomedes" and the "Northumberland" was expected to do likewise.

Napier was a scene of utter desolation. Hardly a single structure remained erect. The death toll mounted steadily as rescue workers tore into the debris, finding body after body. It was expected several days would elapse before the exact number of deaths could be known.

Several residents of Napier declared that for two days prior to the 'quake an exceptionally heavy sea was running for no apparent reason. The first shock was preceded by sudden roaring and grinding sounds. Then, it seemed the whole island heaved convulsively, buildings groaned and bent under the strain, then crashed down in clouds of dust.

People rushing from collapsing

## BRITISH SPEED KING

Captain Malcolm Campbell, British speed driver, who broke the world's record with his 1450-horsepower automobile, the "Bluebird." He became the first man to attain a land speed of four miles a minute or more.

buildings were trapped by falling walls. Others were trapped within and, if they escaped the quick death of the tumbling walls and roofs, the tremors continued throughout the day and night.

Napier was unanimous in its praise for the officers and crew of the British ship "Veronica," anchored in the harbor when the 'quake occurred. Commander H. L. Morgan and his men went ashore immediately and started relief work. Many amputations and operations were made without the use of anaesthetics owing to lack of supplies.

Napier looked as if it had been bombarded by heavy artillery. Streets were piled high with bricks and rubble, and some composed fine buildings. Outside the business centre the damage was severe, but not quite so extensive. Landfills destroyed many beautiful homes. Railroads were crippled. Bridges buckled like tin foil.

The greatest toll was claimed at Napier Technical College. At least 20 boys and girls were killed when this building collapsed. Several boys, returning to save a group of trapped girls, were crushed when a subsequent 'quake tumbled the walls.

Death toll at the nurses' home of the Napier hospital was placed unofficially at 22. Night nurses were sleeping and few escaped. Of those who did, many were severely injured.

## Faces Breakdown

Premier Ramsay MacDonald Advised To Take Complete Rest

London, England.—Prime Minister Ramsay MacDonald, it is reported, has been advised by his doctors to take a complete rest for a few days to avoid a breakdown from overwork.

Apart from a holiday at Looe, his native place, in 1929, and a few days' rest last summer, the prime minister has been continuously at work since the Labor Government took office on June 8, 1929.

## War Claims Adjustment

Money Is Found To Be Owing To German Prince

Ottawa, Ont.—As a result of the finding of the Anglo-German mixed arbitral tribunal, which is settling claims with respect to German property, arising out of the war, Canada has credited the German clearing office with the sum of \$60,183. The credit is authorized in connection with real estate transactions involving Prince Von Hatzfeldt, a German nobleman, and Alvo Von Alvensleben, arising out of the sale of property on Lill Island in the mouth of the Fraser River in British Columbia. The department of the secretary of state here, in confirming the credit, mentioned that the sum would be set off against some three million dollars due Canadian citizens in connection with war claims against Germany. Cables from London state that the tribunal finds the German prince entitled to claim back payments paid by him on the property.

## Reasoned Optimism

New Vistas and Opportunities For Surveyors and Explorers In Canada

Ottawa, Ont.—Reasoned optimism and not pessimism should be the dominant note of public feeling in Canada, Sir George Garneau, of Quebec, told the Dominion Land Surveyors at their annual luncheon here. Sir George was the chief speaker, and gave an historical sketch of the progress of exploration and surveying in Canada from Champlain's time to the present.

Hon. T. G. Murphy, Minister of the Interior, said he was loath to think the Department of Interior had fulfilled its usefulness now that the natural resources had been returned to the prairie provinces. The surveyors would find new vistas for activity and opportunity of continued service for Canada in opening up the districts north of these provinces. W. Maxwell, president of the Association of Surveyors, was chairman.

## CHINA SECURES WHEAT SUPPLIES FROM AUSTRALIA

Tokyo, Japan.—China has become a large buyer of wheat and flour and will continue a very important market for wheat in the future, according to Hon. Herbert M. Marler, Canadian minister to Japan. Mr. Marler has just returned from an extended visit to China where he made a careful investigation of that country's trade possibilities.

At present, the minister said, China is purchasing large quantities of wheat from Australia which, owing to the decline in exchange rates, Australia will be able to sell as much as \$4 a short ton under Canadian prices.

This fact, Mr. Marler added, eliminates every possibility of Canada and the United States competing with Australia in the Chinese market during the current season.

Mr. Marler is greatly concerned over the danger threatening China from decline of silver prices, and expressed the opinion that unless remedial measures are quickly found, China will soon cease to exist as a market for foreign goods.

Ottawa, Ont.—Reports as to the prospects of selling Canadian wheat to China have been made by Hon. Herbert Marler, Canadian minister to Japan, who recently visited China. The nature of these reports, which were made to the government here, has not been announced. However, recent communications from Canadian trade commissioners in the Orient are understood to have contained much the same information as that in Mr. Marler's interview in Tokyo.

Australia is in a position to sell wheat more cheaply to China than the prevailing prices for the Canadian product. Of course, Australian wheat sold to China is off the market for foreign goods, and will not compete with Canadian wheat in other countries, so that the fact Chinese are buying wheat may help Canada indirectly. Trade with the Orient was one of the subjects dealt with by Premier Bennett in his speech at Regina a month ago. His remarks, in part, were: "It will be all means in our power to secure a great market in the Orient for our products, and I have no doubt but we will succeed. Our minister to Japan, Hon. H. M. Marler, is I hope, at this very hour on his way to China to discuss with the government of that great country the purchase of millions of bushels of our wheat."

## BRITISH DRIVER SETS NEW RACING CAR RECORD

Daytona Beach, Fla.—Captain Malcolm Campbell, a world-famous British racing car driver, established a new world's automobile speed record of 245.73 miles an hour on the sands of the natural beach speedway here. Roaring twice over the course in his huge 1,450-horsepower Bluebird machine, he exceeded the previous record by 14.371 miles an hour, and became the first man in the world ever to attain a land speed of four miles a minute or more.

The previous record was 231 miles an hour, established here in 1929 by the late Sir Henry Segrave, also of Great Britain, who later was killed in a motorboat accident at Lake Windermere.

Campbell was clocked at 246.585 miles an hour on his first run southward over the course and on his second trial at 244.897. His average speed for the kilometer, which is approximately five-eighths of a mile, was 246.086. The kilometer course was laid out within the measured mile.

Despite the fact that the beach was not in perfect condition, the giant racing car held to the sand and at no time showed tendency of getting off its course.

After completing both runs, Campbell expressed disappointment that he had not been able to set a higher record. He blamed the unevenness of the beach and poor visibility for failure to travel faster.

"I am not satisfied with the record," he said, after he had torn himself away from a huge crowd of spectators and racing officials who swarmed out onto the beach to congratulate him.

"The car has lots more speed in it and I am a bit disappointed that conditions prevented me from going faster."

"The unevenness of the beach held down my speed and the visibility was so poor that I could do no better. At no time during my runs could I see more than 300 or 350 yards because of the haze that hung over the course. My car was picking up speed all the time and I would have gone much faster if conditions had been better."

Campbell declined to state whether he would make an attempt later to raise his own record or let it stand. He previously had said, however, that he planned to make an assault upon the record for five kilometers, and possibly five miles, before his return to England.

## Itinerary Is Completed

Tour of Demonstration Train Through Saskatchewan Was Satisfactory

Winnipeg, Man.—Following a successful tour of two months, the seed grain and dairy demonstration train, operated by the Saskatchewan Government, co-operating with the Canadian National Railways, has completed its itinerary. During the tour 42 rural points were visited with a total attendance of 3,051 adults, and 1,330 children. The second half of the tour due was the most satisfactory with an aggregate attendance of 2,048 adults and 871 children at the 20 points visited.

It is believed that the tour will prove invaluable in the preparation of exhibits for the world grain show to be held in Regina next year. Special emphasis was given to this feature in the lectures as well as to seed cleaning and the results to be obtained from the effective use of the various types of seed cleaners.

## Lumber For New Zealand

Extension Of Credit For Stricken Areas Is Advocated

Toronto, Ont.—In order that New Zealand may be enabled to purchase Canadian lumber and building materials for the reconstruction of areas devastated by the recent earthquake, extension of credit will be urged on the Dominion Government by the Canadian Lumbermen's Association.

A resolution naming a committee to lay this request before the government was passed recently by the association in convention here. It carried unanimously without discussion.

## Must Pay Own Fare

Mexico City.—Foreigners deported from Mexico would have to pay their own fare home, under the terms of a proposal before the national immigration conference meeting here. Those not financially able to do so would be placed in a penitentiary where they could earn the necessary funds.

Miss Adrienne Allen, popular young British screen star and the wife of Raymond Massey, the well-known Canadian actor and producer on the London stage and the brother of the Hon. Vincent Massey, the former Canadian minister to Washington, who, with her husband, is visiting Canada. Miss Allen won overnight fame in her performance in "Loose Ends," and is shortly to appear in other productions. Her husband also is said to be turning to the screen.

**NOTES AND COMMENTS**

Last week at Edmonton, school trustees from all parts of the province met for their annual convention. It is to be regretted that Coleman school board was not represented, and it is a bad reflection on the local board that this should have happened. If local trustees are to be informed and kept in touch with what is going on in other school districts and towns, it is necessary that a representative should attend. By not attending outsiders may interpret it as an indication that we are not interested. It is a wrong impression. Coleman people are desirous of their schools being as efficient as other schools in the province, and they desire that the trustees shall be well informed of all that pertains to administration of school affairs. This information can be best obtained by trustees meeting others who have similar problems.

A new governor-general has been appointed in place of Earl Willingdon. He is fifty years of age, and the youngest man on record to fill the position. Another comparatively young man is freely mentioned as a possible choice as Archbishop of Rupertsland. He is not 45 years old, yet there is a possibility that he may be the successor to the Primate of Canada, Archbishop Matheson, who recently resigned after many years of faithful service.

Though years bring mature judgment, it is to younger men that we look for action. Youth, energy and vigor are on their side, and a real leader must possess these qualities to inspire others.

A number of the general managers of western steam coal mines are this week in Ottawa conferring with government ministers on problems affecting the coal industry. Artificial helps are useful to overcome present difficulties, but the day is undoubtedly coming when coal will be used in a different form than the present method. The use of natural gas in western cities has made plain that for comfort and cleanliness it is ahead of coal, and it will hasten the day that will bring about the manufacture of gas from coal. Pipe lines will convey the gas from the mines instead of coal being shipped long distances.

The handicap to bring this about is lack of sufficient capital, or the ability to interest big capital in a proposal of this nature. Natural gas from Turner Valley is so plentiful that coal is not being given serious attention, but as gas and oil cannot be taken from the earth indefinitely, the time will come when coal will be utilized for this purpose.

Local curlers attending Cranbrook bonspiel report having enjoyed their visit. Coleman will have the opportunity next year to be host to the curlers from those towns whose enthusiasts met last week at Cranbrook, and they may rest assured that every effort will be made to make their stay here as pleasant as it was for visitors there.

Whatever your trade, profession or occupation may be, there is an opportunity each day for constructive thought and action. We live in the present; it demands action to survive in an intensely competitive age. Action is imperative in order that one may live, and each person must do his share in the battle of life. You cannot "pass the buck" to others when it comes to earning a living. Despite the faults of the present economic system and its defects in distribution, it does not lessen the responsibility of the individual to put forth constructive effort each day.

**Here and There**

(701)

The Nova Scotia fish catch for December last was 12,161,500 lbs., having a landed value of \$266,111, as compared with a catch of 10,480,700 lbs. with a value of \$229,952, for the corresponding month of the previous year.

Total amount of capital invested in Canada from other countries as at the end of 1930 was \$6,375,533,000, an increase of \$229,000,000 as compared with the total at the end of 1929. Of this outside investment, 61 per cent. is said to be from the United States; 35 per cent. British; and 4 per cent. from other countries.

The yield of potatoes in Canada in 1930 totalled \$1,923,323 bushels, from 574,500 acres, an average yield of about 142 bushels per acre. In 1929 the yield was 66,550,000 bushels from 543,727 acres, or an average yield of 122 bushels per acre. Potatoes are grown successfully in commercial quantities in every province of the Dominion.

The Canadian Pacific Railway has announced placing of orders with the Algoma Steel Company of Sault Ste Marie for 30,000 tons of 130 lb. steel rail for spring delivery, representing a value of approximately \$1,500,000. This unusually heavy rail will be laid on 150 miles of the company's main line in the Mountain Division of British Columbia.

Prescott, Ont., Canada's newest national port, is rapidly approaching completion. The \$5,500,000 terminal which the Canadian Government is building there as a turning point for the Upper Great Lakes grain boats when they come down through the Welland Canal in the spring of this year will be ready for traffic in advance.

Canoing history was made at Quebec recently when the seven Lavoie brothers piloted their craft over the ice-dotted waters of the St. Lawrence between Quebec and Levis in the remarkable time of 9 minutes, 43 seconds, and took first place in the canoe race which was one of the features of the Quebec Winter sports season with headquarters at the Chateau Frontenac.

"Melody Mike", Canadian Pacific Railway radio feature given every Monday night, is not only attracting wide popularity in Canada; the United States also like it and the railway's radio department recently had a letter from a school teacher in Angola, N. Y., stating, asking for 55 copies of Melody Mike's Favorite Irish songs, for distribution among her pupils.

In 1930 the Dominion's gold production was valued at \$45,000,000, an increase of \$2,000,000 over 1929. The capital investment in the mining industry in Canada at the end of 1929, the last year for which complete industrial statistics are as yet available, amounted to \$850,000,000. In that year the industry gave employment to 95,000 men and paid out in salaries and wages \$125,000,000.

The establishment of a \$75,000 marine tug for handling grain at the Ocean Terminals is one part of the programme for the development of the Port of Halifax recommended to the Federal Government recently by the Halifax Board of Harbor Commissioners. This addition, in the opinion of the chairman of the Commission, would attract more shippers and vessels to the port, and would save in one year an amount equal to the cost of the equipment.

Money saved is as good as money earned, especially in the things you buy every day for the home. Look up the grocery specials of Coleman stores in this paper.

500 sheets of bond writing paper letter size may be purchased at The Journal office, price \$1.15, or \$2.15 for 1,000 sheets.

# More Attention Must Be Paid By Hog Raisers To Feeding And Marketing In Best Condition

During the past few years Canadian hog producers have been able to congratulate themselves on the vast improvement that has been made in the quality of their hogs and pork products. Packers have been glad to join in acknowledging to the full this improvement. It meant that producers and packers were enabled to supply the demand for fine quality bacon to a great extent each year.

But throughout this whole period it has been evident that much more attention was being paid to type and breeding than to feeding and marketing in the proper condition and at the most desirable weights. It appears impossible for producers to realize that consumer demand is definite, clear-cut and exacting. It will not take a product from the producer simply because that is what he happens to have at the time or that he finds it easiest to supply.

In the pork trade there are two requirements of consumptive demand:

faithness to an excessive percentage of the heavier weight hogs the result is serious trouble with the consuming trade.

It should thus be abundantly clear why Canadian packers for years have been urging producers to improve their feeding methods and to market hogs at more suitable weights and finish. For several years light weights and lack of finish have been emphasized as undesirable. Now the situation is reversed. Hogs are over-fat and too big a percentage are above the most desired weights. This has made necessary a revision of price differentials between the grades. If the evils continue further steps will have to be taken to correct them. The necessity is not due to any change in consumer demand, but to change in produced supply. The objective is to bring the supply back to the requirements of the demand, just as it was when too many hogs were light and under-finished.

These three cuts of bacon, all from good types of hogs, show the results in the meat of different methods of feeding the animals. The difference in the thickness of the lean and fat and their relation to each other should be closely noted. The picture shows very plainly how good breeding is spoiled by bad feeding.

The one relates to weight of the cuts, the other to quality of the meat. This demand is almost constant. In the export trade there is an almost constant demand for a certain percentage of Wilshire sides weighing from fifty to fifty-five pounds, another constant percentage for sides of fifty-five to sixty pounds, and again another constant percentage for sides of sixty to sixty-five pounds, and so on. In the domestic market certain percentages of the total product of hams or bacon of specified weights are definitely required. A percentage of the trade requires ten to twelve pound hams, and other percentage twelve to fourteen pounds, etc. Similar weights apply to other cuts.

In the same way there is definite demand as to the quality of meat and the amount of fat. The bulk of the trade wants lean, but not too lean, meat. Another section requires a somewhat fatter, but not too fat, meat. To disregard this demand brings heavy penalties from the consumer.

It appears difficult for the producer to grasp these facts or to apply them to his production methods. The result is a varying supply with which to meet a constant demand. The producer is inclined to view it as varying demand and to complain that he never knows what the market does want. But the situation is very simple. Demand is constant. When the producer is sending to market more light and lean hogs than the percentage required by the trade that absorbs this product, there is a discount on these hogs. When the producer is sending to the market more of the heavier weights, even though not over-finished, than the percentage wanted by the trade using such weights of product, it is the oversupply, not any change in demand, that depresses the price of cuts from hogs of these weights. When, however, the producer adds over-finish to the extent of extreme

## Predicts Science Will End Depression

Professor Believes Some New Discovery Will Boost Business

It was predicted at a science symposium, in New York, sponsored by the American Institute, that science will end the current business depression by developing some new product as widely used as the radio or the automobile.

It may be, Dr. H. H. Sheldon, professor of physics at New York University, said, ultra-violet light as a substitute for sunlight indoors, artificial weather, aviation safety devices, electric clocks or automatic refrigeration.

Commercialization of scientific discoveries has ended depression in the past by creating new mass-production industries that gave jobs to the unemployed, said Dr. Sheldon, citing the radio, automobile, telephone, bicycle, electric dynamo and clipper ship.

## Children Annoy Parents

Survey In State Of Georgia Finds There 2,124 Ways In Which It Can Be Done

There are 2,124 ways in which children can annoy their parents, declared Dr. Mandel Sherman, director of child research, Washington, in discussing "education for parenthood" at the Georgia State College.

In a survey made by 32 parents, who agreed to keep an account of the various ways in which their children annoyed them, disobedience received the highest percentage. Other annoyances listed were: Because children were too slow; too quick, or because they "primed up" too much.

Results of the survey showed, Dr. Sherman said, that the way in which a child is brought up determines what he will be later on as an adult. The attitude of the parents greatly affects the kind and number of annoyances with their children.

## May Use Bay Route

Railways Of Continent Could Be Granted Running Rights By Government

If the government grants them privileges, the Hudson Bay Railway line is open to the railways of the continent, J. A. Campbell, K.C., said in an address at The Pas, Mr. Campbell, former member of parliament, was noted as a strong advocate of the bay route, via Churchill, when the route was first proposed.

Canadian National Railways, he said, was operating the line for the time being, but, if the government desired they could give any railway in Canada or the United States running rights over the line to Hudson Bay. The Canadian Pacific Railway, he thought, would likely seek running rights as soon as practical testing of the route is completed.

## Named Auditor

Charles Blake Gordon, appointed Auditor of Disbursements, Canadian Pacific Railway, from January 1, 1931, entered the service of the railway in 1903 as stenographer in the vice-president's office. In the same year he was appointed secretary to the president, then Sir Thomas Shaughnessy, with whom he remained until 1910 when he was appointed secretary-treasurer of the Kettle Valley Railway Company in British Columbia. From 1914 to 1919 he was an military service and in 1919 was appointed treasurer of the Kettle Valley Railway, afterwards becoming controller of the line. He left that position on promotion to his present post at the beginning of the year.

## Report Shows British Women Live Longer

Death Rate Among American Women Thirty Per Cent. Higher

English and Welsh women live longer than women of the United States, according to an eight-year comparison by the Millbank memorial fund. English and Welsh women also have greater longevity than Englishmen and Welshmen, and the latter live longer than American men, it was indicated.

"The American death rate for women aged 25 to 64 is more than 30 per cent. higher than the rate for English and Welsh women within the same range of ages," said the statement. "Comparing men in the same groups, the report shows that the American mortality is at least 15 per cent. higher than the British."

"The evidence of greater British longevity revealed in this report is considered significant because it is shown consistently for each of the eight years studied, as well as for each age group of men and women taken separately."

# Canada Has Stepped Up To Second Place Among Gold Producers Of The World

## Cream Grading Competition

New Feature At Annual Conventions Of Saskatchewan Dairy Association

Announcement of prize-winners for a women's cream-grading competition, a new feature this year, was made at the annual convention of the Saskatchewan Dairy Association held at Regina.

Mrs. Lanny Stebbing, Victoria Plains, was announced winner of the first prize, Mrs. Percy Ryan, Regina, won second place.

Winners in the record book competition for boys and girls were also announced: Orville Swenson, Moose Jaw, taking the first award.

In the record books are kept figures showing the monthly production of each cow in a herd of five and the total cost of feeding.

Some of the speakers were: Gordon Lovelidge, Grenfell, on "Calculating the Cost in Rations"; Charles Harton, Belle Plaine, on "Feeding Of An Average Herd"; R. H. Smith, Regina, on "Dairy Dollars Help"; Professor V. E. Graham, College of Agriculture, Saskatoon, on "Some Changes Which Take Place In Cream At Different Temperatures"; and Dean A. M. Shaw, College of Agriculture, Saskatoon.

Among the most keenly debated questions of the present time is the supply of gold available for monetary use and the probability or the reverse of that supply being maintained. In this subject Canada has a double interest, first, as a producer of some importance and, secondly, as a trading nation, whose aggregate in proportion to population is the second highest in the world, and whose people are necessarily intimately concerned with whatever is fundamental to world prosperity. In this connection much argument has been expended on the necessity for a more equitable distribution and employment of the existing stocks of gold. Along with this, however, has come a note of real actual shortage in the gold supply itself, mainly caused by the anticipation of a sharp reduction in the supply of South Africa's output, the mainstay of the world in that respect during the last quarter of a century. For the total gold output of all the remaining sources of supply in 1929 when contrasted with the situation in 1905, showed a drop of nearly thirty per cent.

In the December issue of Natural Resources, the monthly publication of the Dominion Department of the Interior, the trend of world gold production is reviewed, and it is noted as of special interest from the Canadian standpoint that in the writings of almost all students of the gold situation "little or no importance has been attached to Canada's rising output. It is true," the writer admits, "that the Dominion's production has never based largely in the world's total output, but it has grown, and is continuing to grow, substantially. With gold being produced in larger quantities either from gold properties or from huge ore bodies in which gold is associated with other metals, it may well be that Canada's resources are destined to play a much more prominent part than has yet been foreseen, in offsetting the expected depletion of the South African goldfields and the threatened embarrassment of the world's monetary systems."

It is, therefore, with all the greater interest we learn from an editorial in the Quebec Chronicle-Telegraph that in 1930 Canada produced more gold than any other country in the world except South Africa. It stepped up from third place to second place as a gold producer, the American production of the world. In so doing it changed places with the United States. The Northern Miner estimates Canada's yield last year at over \$43,000,000, and the yield of the United States at \$41,000,000. For some years past, the American production has been gradually dropping and Canada's production gradually increasing. Not a single Ontario gold mine reduced or passed its dividend last year. One gold mine initiated dividend payments and a 30 per cent. bonus. One declared an extra dividend. And still another resumed dividends after a lapse of two years.

Gold mining is thus an industry, the Chronicle-Telegraph continues, that, during 1930, grew in prosperity, contrary to the trend of most other industries. Incidentally, several of our most important gold mines are finding bodies of rich ore at unexpected depths. Developments in the new Bannockburn field seem to point to the beginning of a new and greater era in gold production. In the meantime, prices of base metals show signs of stabilization, so that we may be on the verge of an improvement in nickel, copper, lead and zinc mining. There is even some hope for silver. The action of Mr. E. W. Beatty, president of the Canadian Pacific Railway, in taking the place of Lord Melchett on the board of the International Nickel Company is just another sign of the times. Those leading Canadians who have the most reliable sources of information show a growing confidence in the natural resources of the Dominion and their progressive development.

## Quite Simple

"I am ashamed of my failure to keep abreast of modern science," said the learned professor of zoology to the young housewife. "Take the electric light, for instance. I haven't the least idea how it works." "The young woman gave him a patronizing smile. "Why," she said, "it's very simple, really. You just press a button and the light comes on—that's all there is to it."

"Did you ever lose control of your car?" "No; my father-in-law paid for it outright."

## THE FLYING MACS

When Canadian Pacific train No. 650 left Guelph for Goderich the other day, it might have been considered as the Dominion equivalent of the famous "Flying Scotsman" of the London-Edinburgh route, since all five officials were "Macs." They are shown, left to right, upper half, Chester MacDowell, trainman; Alexander MacDonald, conductor; Lloyd J. McManey, trainman. Lower left, Duncan MacDougall, engineer; and right, William J. MacMillan, fireman, around one of the latest 2800-ton type, roller-bearing equipped passenger locomotives.

## An Incentive To Thrift

New French Clock Runs If Money Is Deposited Daily

An ingenious incentive to thrift—a quality for which the French people are justly famous—is provided by a device recently placed on the market. It is a clock, which is at the same time a savings bank. Unless one feeds it a franc, or two francs, or three francs, as the case may be, each day, it will not run. The owner of the clock if he does not wish the openly accusing face of the timepiece to stare at him heartlessly, motionless, and silently, must therefore make his savings deposit as regularly as he would wind his alarm clock. In an age when time payments can be made on almost anything, the savings clock will probably assist many people in paying their instalments promptly.

## Help yourself to PARKER HOUSE ROLLS

## Try this Recipe

1 cup scalded milk  
2 tablespoons butter  
1 tablespoon sugar

1 teaspoon salt  
1 Royal Yeast Cake dissolved in  
1 cup lukewarm water

■ To the scalded milk add the butter, sugar and salt. Allow it to cool until lukewarm and then add dissolved yeast and  $\frac{1}{4}$  cups flour. Stir well and let stand in moderately warm place overnight. In the morning, add enough flour to knead, and let rise until about double in bulk, then roll out  $\frac{1}{8}$  inch thick. Cut with biscuit cutter and brush each piece with melted butter, crease through the center and fold over. Let rise again until double in bulk and bake for about 25 minutes in moderate oven. Above is sufficient for about ten rolls.

If you bake at home, write to Standard Brands Limited, Fraser Ave., & Liberty St., Toronto, for the free Royal Yeast Cake Book. It contains tested recipes for Lemon Buns, French Tea Ring, Dinner Rolls and many other delightful varieties of bread.

## ROYAL Yeast Cakes

make all breads taste better, look better and keep better. For over 50 years they have been the accepted standard of quality wherever dry yeast is used in home baking.

Keep a supply handy. Each cake is sealed in waxed paper. They will keep for months.

"Buy Made-in-Canada Goods"

## Canada's Glacial Period

Covered With Ice a Mile Deep At One Time

A story of the time when the levels of the Great Lakes were 50 feet higher than today, and when the northern part of North America was covered with ice a mile deep, was told members of the Over-Seas Club by Dr. Thomas H. Clark, professor of paleontology at McGill University, Montreal.

Before the last glacial period, the Great Lakes did not exist, said Dr. Clark. Niagara Falls was non-existent and where Lake Ontario now lies was a river, called by geologists the Laurentian River, which followed the present course of the St. Lawrence River, but was longer. The country then had a milder climate than today, he said.

The glaciers left three lakes, one near the lower end of Lake Michigan, one near Lake Superior, and one near the lower end of Lake Erie. Later changes filled out the outlines of the lake system as we know it today, but at a higher level, said Dr. Clark.

The position of Niagara Falls is changing rapidly, said Dr. Clark, moving southward up the Niagara River at the rate of five feet a year, as the water breaks down the limestone at its edge.

After the melting of the glacier, the sea flowed in and covered the St. Lawrence valley, said Dr. Clark. Proof of this is found on Mount Royal, 600 feet above the present sea level, the finding of the skeleton of an Arctic whale at Smith's Falls, and the finding of marine fossils all throughout the area.

## If baby has COLIC

ACRY in the night. Colic! No cause for alarm if Castoria is handy. This pure vegetable preparation brings quick comfort, and can never harm. It is the gentlest when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation, or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it safe for frequent use.

And a more liberal dose of Castoria is always better for growing children than strong medicine meant only for adult use.

Fletcher's CASTORIA

## Little Helps For This Week

"Wherefore, beloved, be diligent that ye may be found of Him in peace, without spot, and blameless." — 2 Peter iii. 14.

Thou must be true thyself. If thou the truth wouldst teach; Thy soul must overflow, if thou Another's soul wouldst reach; It needs the overflow of heart To give the lips full speech.

Think truly, and thy thoughts Shall the world's famine feed; Speak truly, and each word of thine Shall be a fruitful seed; Live truly, and thy life shall be A great and noble deed.

—Horatius Bonar.

We know no truth except by action. We can teach no vital truth except through the life. We cannot attain to the eternal joy except as we walk step by step in the path of actual duty and performance in which He walked, who so gained its fulness, and sat down at the right hand of the Father.—Theodore S. Minger.

Douglas' Egyptian Lintment is remarkable in its quick, effective action. Relieves instantly burns, sprains, toothache and neuralgia. Invaluable for sore throat, croup and quinsy.

## Today's Best Story

Two hundred years ago, a Danish child of five, Christian Heileken, was the most-talked of child in the world.

He was able to speak within a few hours of his birth, at ten months he could converse intelligently on most subjects, and when he was a year old he had become thoroughly acquainted with the Old Testament.

His health caused his death at the age of five.

## REGULAR PAINS?

SOME women suffer more than others. Often, when there isn't any need! The pains peculiar to women may be relieved as readily as other pains for which Aspirin is intended. These tablets are always a big help at such times, and never the least bit harmful. (Aspirin does not depress the heart.)

Of course, you are familiar with the use of Aspirin for headache. It brings such prompt

relief that sudden headaches needn't upset your plans. It will check a cold, or ease the sorest throat; and comfort the worst sufferer from neuritis and neuralgia. When your head aches—from any cause—when a cold has settled in your joints or you feel those deep-drawings of rheumatism, sciatica, lumbago, take Aspirin and you can count on rapid relief.

## THE DUSTY HIGHWAY

—BY—  
CHRISTINE WHITTING  
PARMENTER

Copyright 1929

CHAPTER X.—Continued.

Gay turned from the window, her throat aching with an intolerable pain. The lightning was intermittent now, and the thunder was a distant growl. She went into her dusty kitchen and heated milk for baby Nick—gave Sonny his supper, and leaving the soiled dishes where they were, put both tired little boys to bed.

"We wants Daddy," said Sonny sleepily, as she tucked him in. "Me wants Daddy—tebbly."

Gay kissed him, and held him close. "Mother wants Daddy, too, little boy," she said gently. "When you wake up he'll surely be here. Now go right to sleep. Think how glad Daddy'll be to see us in the morning."

She went into the next room, and for a long time busied herself with unimportant things. Because she dreaded to go to the lonely rooms below. But at last she braved them, and an hour slipped by while she washed the dishes, and cleared away the remains of Nick's hasty meal. She tried to eat something herself, but the food choked her. It was still raining, the shower having settled into a steady downpour that threatened to last all night. She swept the kitchen at last, and during the living-room and hall, her ears alert for the longed-for whirr of an automobile; but it did not come.

"I hope Nick took an overcoat," she thought aloud. "He's so careless sometimes, and it was warm this morning. . . . I do hope they're almost home. . . . It must be horrible driving a car in such a rain. . . . I wonder if they took chains. . . . This mud will make slipping going. . . . I hope he was careful and fast. . . . It's queer they're so late. . . . Perhaps—perhaps there's an accident."

She thrust back the thought in horror; but as such thoughts will, it kept returning, just as her steps returned to the window, although she could not see beyond the glass. At last, in an effort to calm herself, she tried to read, but the house seemed suddenly alive with noises; creaking boards that seemed like stealthy footsteps—branches slapping against

## MOTHER OF TWINS HELPED

Restored to Health by Taking Lydia E. Pinkham's Vegetable Compound

Mitchell, Ont.—"I had little twin babies and for quite a while after I was so weak I could not do my work because of pain all the way up my legs at the back. I sometimes had to get up and get very little sleep. I took Lydia E. Pinkham's Vegetable Compound, and soon I was able to get up and do my work. I have taken three bottles and am fine, do my work without trouble and am gaining in weight and strength. I will gladly recommend the Vegetable Compound to anyone." Mrs. F. STATION, Box 220, Mitchell, Ont.

W. N. U. 1876

the window panes, and occasionally a blind slammed in the wind that was rising fast.

Nine o'clock seemed midnight to her taut nerves. It came and passed, as did ten, and then eleven. Gay almost wished that her tired babies would awake and demand attention. Anything would be better than this solitude.

It was then that a sharp rap on the old brass knocker startled her. She ran to the door, but her hope that it might be Nick was dashed when she saw James Halliday standing on the porch. In the dim light his face looked grey and drawn, and a sickening fear swept over her that he had brought bad news. Then he said: "Have you heard from your husband, Mrs. Hastings?"

He stepped inside, laying his wet hat upon a chair, while Gay led the way into the living-room, and sank down weakly. That moment of fear had wrought havoc with her newly mended nerves.

"No," she answered. "He doesn't know I'm here. He wasn't expecting me till Wednesday; but we had a chance to come to-day by automobile, and it seemed best. Have you heard nothing, Mr. Halliday?"

He smiled grimly. "I, too, was away, you know, and not expected until morning. We seem to be in the same boat. Did you by any chance know anything about this trip?"

Then he hadn't known! No, thought Gay, they were not in the same boat. And yet. . . .

"Why, yes," she answered, pulling herself together. "Mr. Hastings telephoned me Friday night. He'd been dining with Mrs. Halliday, and said she expected some friends for the week-end, and wanted to take them to Maan's Falls. I thought that she wanted someone to drive the new car, and asked Nick to do it; but— but I understand from Julie Nipps that—that they went—alone."

It was the hardest thing that Gay had ever done, to face James Halliday then. But she did it, lifting her eyes honestly to his in a glance before which his own eyes dropped.

"I see," he said shortly, and arose, walking to the window and peering out into the night. He glanced at his watch, and coming back sat down.

"The storm has probably delayed them," he observed, "and since they don't know we're here and will send no message, there is nothing to do but wait. Even then, I don't see how they can be much longer. Are you

"With only the children, but—but I shan't be nervous if they come soon."

He said, after a thoughtful moment: "I'm sorry, but I sent Julie home for the night when I returned. She'd been at the house all day, so I told her to go. If I'd realized that you were alone I would have sent her here."

It came to Gay in a surprising flash, that in spite of James Halliday's cynical mouth and banal stories, he was really kind. He had come from his mother's funeral to find only an empty house, yet he was thinking not of himself, but of her. She looked up gratefully to find him brushing a weary hand across his eyes.

"You mustn't worry about me," she told him. "I'll go up pretty soon and sit with the babies. They're company, even if they're asleep. You ought to go home to bed, Mr. Halliday. You've been through so much today."

He drew a quick breath, as if surprised at her sympathy. "I have been a hard day, and—"

He broke off suddenly, then added: "Mrs. Hastings, I think I ought to tell you something. I know we're both having the same thought—that an accident may have delayed them, because accidents are so uncommon thing. But

I know anyway, that at three this afternoon they were all right. I—I saw them."

"Where?"

In her surprise the question broke from Gay's lips involuntarily, though in another moment she would have withheld it, for Halliday winced.

"My mother was born only a few miles from Anton Bay," he answered quietly. "I took her there today. There was a railroad crossing to pass on the way to the cemetery, and a freight train stopped us—a long freight. There was only the one—hearse, and—myself. My sister was too ill to go. While we were waiting an automobile came along beside us. It was Mrs. Halliday and your husband. Of course—they did not see me."

"Oh, no!" protested Gay, and her breath quickened. She saw the pitiful scene so vividly: the country railroad crossing—the horses—the solitary "back" of the village livery, and the lonely man peering out of the depths of that stuffy vehicle at the wife who had refused him the comfort of her presence—looking her loveliest perhaps, and—another man. . . .

Gay's firm white teeth clenched. In her under lip to steady it, as Julie's words came back to her. She saw Halliday pleading with his wife, saying: "Angela, I'd like you to go with me." For a moment the room seemed to revolve before her eyes—it was as terrible; and then, like a breath of life-giving air, a steady thought flashed through her: Nick was—Nick! She cleared her throat and spoke.

"I am so sorry, Mr. Halliday—sorry my husband should have had any part in causing the pain you must have felt. I understand—what you have suffered; but—but I want to tell you something you may not realize: No harm will ever come to your wife through Nick. He's young, and sometimes thoughtless of conventions, but he's true as steel. He never had a mean or unlovely thought. Deep down in his heart (though he'd laugh at the idea himself), he's as chivalrous as any knight of old. So—whatever's happened, it—it won't be that."

The eyes she raised to him were those that Nick had told her to try to "snatch a man right back from the jaws of Hades." The white light of truth in their clear depths was like nothing the man had ever seen. It caught his own eyes—he held them for a moment. Then, as she thought swept through him that his fears had been not for his wife's safety, but for her sinister influence upon another man, his shamed gaze dropped.

He said, his voice repressed and steady: "I should have known that anyway, Mrs. Hastings, but—thank you for telling me. Perhaps we are

plants store water

Vine in Arid Regions Can Store Sufficient Water To Last 15 Years

A vine in the arid regions of Arizona and Sonora stores water in an expanded base in such quantities that it has been known to live on its reserves for 15 years, Dr. Daniel T. MacDougal, director of the Desert Laboratory at Tucson, Ariz., said recently in a radio talk on "The Thirst of Plants."

"A tree cactus," he added, "may hold many hundreds of gallons of surplus water. Many plants in that region have now a water supply laid in which would keep them alive until 1933 or 1934. An acre of cabbage will use 2,000,000 quarts of water in a season, and 200 beech trees on an acre require nearly double that amount. One of these trees loses about 80 quarts of water as vapor daily from its leaves."

Cannot Finance Work

Though the B.C. Government favors a line to the Peace River, its financial resources prevent it undertaking the work of extending northward the publicly owned Pacific Great Eastern Railway.

Guns—"So you sing in a quartet now?"

"Fuss"—"I do. The other three merely fill in."

Double-deck Interurban cars have appeared in England.

## Rheumatism Routed. Rapid Relief.

Mr. Arthur Padgett, of Barnley, writes:—"For the last few years I have suffered with rheumatism, also severe attacks of indigestion. I suffered great pain in the back and tried various remedies without relief. A friend advised me to try once Carter's Little Liver Pills—this did me a great deal of good. I am a miner, and I strongly recommend your valuable pills to all sufferers of rheumatism, indigestion and constipation. Take Carter's Little Liver Pills for sick headache and indigestion. All druggists 25¢ and 75¢ red pills.

## Personal and Local

Miss M Apponen was a Calgary visitor, spending two weeks with her sister, Mrs N. Shaw.

Mr and Mrs C. E. Huffman announce the birth of a baby boy on Feb. 12

T. B. McLeod of Calgary is relieving A. L. Watkins, government liquor vendor, who is going on vacation.

"Peppy" Oliva was winner at the miniature golf course last week with a score of 38. The prize was a glass water set.

Wm Jackson, who was hurt in the mines here and has spent the last six months in hospital in Calgary, returned to Coleman last week.

W. Hogan, whilst driving from Blairmore on Monday night, was run into by another car. Police investigation showed the driver to be without a driver's license. He was prosecuted and fined.

Mrs. Wm. Antle of North Fork received word of the death of her mother in Nasimio, B. C. She was on her way to a picture theatre and expired in a street car. Mrs. Antle passed through on Friday's train to attend the funeral.

Mr. A. J. J. Guerd, nephew of Mr and Mrs A. R. Guerd, New Coleman Hotel, and Miss Eve Guerd, niece, of Port Arthur, Ontario, are visitors in Coleman this week.

"Bill" Bell states there will be a hard fight this year between the Rangers and East Fife to get into the Second League. This will probably create a very heated discussion within the portals of the Grand Union.

A social and dance will be held by Summit Lodge, A. F. & A. M., on Thursday, Feb. 19, commencing at 8 p. m. Masons and their wives and members of the Eastern Star chapter and their families are invited.

Plate engraved visiting business cards may be obtained at The Journal office. 10 samples of neat engraved types to choose from. If you have plates already, leave your orders here for printing at city prices. Prices on request.

Ralph Montalbeti returned recently from Calgary after spending nearly six months in hospital. Last August he fell from an electric light pole, breaking bones in one foot. It will be several weeks before he will be fit to resume work with Coleman Light & Water Co., as he is still quite lame as a result of his accident.

Use stamped and printed envelopes. 2c stamped envelopes with name and address printed in corner or on flap of envelope, \$3.00 for 100. Not stamped \$1.00 for 100 printed or box of 500 No. 8 super quality, printed, \$4.00, 1,000 for \$6.75. No. 7 envelopes \$5.00 per 1,000, printed.

O. E. S. Whiteside and G. Kellock left on Saturday night for Ottawa to attend a conference of steam coal operators from the Maritime provinces and Alberta and British Columbia. Vital matters affecting the steam coal industry are to be discussed at the conference with Federal government representatives.

Fernie society now has a real live countess, who with her husband is this week visiting her parents, following her marriage to Count Kern, a mining engineer whom she first met in Fernie. They were married in Edmonton, where the bride, formerly Miss Audrey Mills, was attending university. They plan on leaving for Europe in the near future.

Whist drive to night in Catholic parish hall.

Neatly printed personal stationery, or cards printed from engraved plates, may be obtained at The Journal office.

Miss Margaret Robinson, marceller at Graham's beauty parlor, was a visitor to Cranbrook with friends over the week-end.

Magazines, periodicals, drug sundries, toilet requisites, etc., at popular prices at McBurney's drug store. See our specials in advert. each week.

Several people locally heard the message from Vatican City about 8.30 this morning, which is the first time the radio has been used in broadcasting there. The Pope's message was spoken in Latin, and translated into other languages by announcers.

A dark brown butterfly measuring 2 1/2 inches across the wings, was caught this morning by Master W. Antrobus in his father's dairy barn. It was flying as vigorously as if it was enjoying the balmy air of summer time.

Antrobus' Shoe Store announces a fine new line of Woods Lavender Live men's socks. They are in the latest patterns and colors, and will be found the best value in this line that can be obtained.

Sparks from the chimney of T. Bowen's house lodged on the shingles last Sunday night, and started a fire, which was noticed before it gained headway. A passerby noticed the smoke, and Mr Bowen with the assistance of his son Earl and Mrs. Bowen, quickly extinguished the fire.

An exchange coming into The Journal each week contained the following amusing skit: There was a man in our town and he was wondrous wise, He swore by all the gods above he would not advertise! But one day he did break the rule, and thereby hangs a tale: The ad. was set in real small type and headed—"Sheriff's Sale."

The Chas. Eliot Literary club met in the Grand Union hotel last evening for their monthly luncheon meeting. Miss Olga Hole gave a paper on "Behaviorism," involving considerable study and careful preparation, and H. T. Halliwell gave a paper on Newspapers and Journalism. Principal McPherson and Miss Madeleine Chardn of Blairmore were present, and several visitors from town. Rev. A. E. Larke was chairman.

The Journal office can fill your orders for commercial stationery.

## TOWN OF COLEMAN

### DOG LICENSES

All licenses to keep dogs in the town must be paid by March 1, 1931. Owners of dogs not having taken out a license by that date will be prosecuted under the by law governing same. By Order of the Council.
